In 1986, Karel Dawson came to this part of Suriname and decided to build the Kabalebo Nature Resort in order to enjoy and share this incredible natural and unspoiled habitat. Twenty years later, Dawson's lodge has 10 twin-bedded rooms with air-conditioning, closet space and private bathroom with hot and cold running water. There is also a spacious veranda on which meals are served and which offers an opportunity to relax, watching and listening to the local wildlife. Dinner and overnight at resort.

### **Day Three through Day Seven**

#### **FULL DAYS FISHING**

After breakfast you'll head out with your guide to fish from large traditional dugout canoes. For the intrepid angler, Kabalebo offers a brand new world of jungle sportfishing, with some of the largest red tail catfish in all South America, as well as other tropical species. The Kabalebo River, upon which the resort is built, flows through this untouched area of rainforest like a mountain stream with rocky outcroppings throughout. Among the most popular species are red tail catfish weighing as much as 60 kg, aymara (giant traida), pacu, surubin catfish and of course the piranha. Spent the day fishing for these many species or perhaps take some time to hike and explore this incredible natural area. Lunch will be provided aboard the fishing boats. Dinner and overnight at resort.
